

Yuncong Li

Department of Soil and Water Sciences, Tropical Research and Education Center
Institute of Food and Agricultural Sciences, University of Florida
18905 SW 280th Street, Homestead, FL 33031
Tel. (786) 217-9251; Fax (305) 246-7003
E-mail: Yunli@ufl.edu
<https://trec.ifas.ufl.edu/faculty/yunli/>

(a) Education

Shandong Agricultural University	Soil Science/Agro-chemistry	B.S.
University of Georgia	Agronomy/Soil Chemistry	M.S.
University of Maryland	Environmental Science	Ph.D.

(b) Employment History and Academic Appointments

- Professor, Department of Soil and Water Sciences, University of Florida, 07/2008-Present
- Associate Professor, Department of Soil and Water Sciences, University of Florida, 07/2003-06/2008
- Assistant Professor, Department of Soil and Water Sciences, University of Florida, 11/1996-06/2003

(c) Professional and Synergistic Activities

- Research Focus: Management practices to improve nutrient use efficiency, and nutrient cycling in soils/sediments. nonpoint source pollution, water and soil quality monitoring, assessment, and remediation.
- Extension Focus: Providing training of nutrient management practices and water quality for extension agents, researchers, and others; Having an extension program of water quality/quantity best management practices; Organizing and participating workshops, demonstration and field days; Publishing extension articles and newsletters; Training and providing technical assistance to county extension agents.
- Teaching Activities: Involving in advising and mentoring undergraduate interns, graduate students, and postdoctoral research associates. Taught graduate courses of “Communication in Academia” and “Advance Soil and Water Chemistry”. Chaired or co-chaired 35 PhD and MS students, served as a committee member for 47 graduate students, and supervised 16 postdoctoral fellows and over 70 international visiting (six months to two years) scholars
- International Activities: In collaboration with international colleagues, I have conducted field research in Asia and South America and these activities have resulted in many scholarly publications and change in practices. In collaborations with over 200 international scholars from 27 countries, I co-edited the Handbook of Soil Sciences. The book is a comprehensive and cohesive reference on the discipline of soil science and serves as a valuable resource for soil scientists, agronomists, engineers, ecologists, and biologists. Our second book entitled “Water quality concept, sampling and analyses” has been distributed worldwide and used by scientists and environmental professionals for protecting water resources. I have hosted many international scientists and students for long term studies and short visits and made significant international contributions to promote research, teaching and extension of soil and water sciences. I have been invited to give keynote talks and lectures in many countries and taught short courses on integrated nutrient management and soil and water quality.

(d) Honors and Awards

- Fellow (American Society of Agronomy and the Soil Science Society of America)

- Junior Faculty Research Award (Sigma Xi, the international honor society of science and engineering)
- Senior Faculty Award (Gamma Sigma Delta, the honor society of agriculture)
- Distinguished Extension Award (Extension Association of Florida)
- International Educator of the Year (UF, IFAS)
- Kingenta Agricultural Science Award (American Society of Agronomy)
- Distinguished Career Award (Association of Chinese Soil & Plant Scientists in North America) University of Florida Research Foundation Professorship Award and Term Professorship Award
- Most Publications Faculty Award (UF/TREC)

(e) Publications (Career total: 3 books, 16 book chapters, 286 refereed papers, 71 non-refereed publications, and 115 extension articles)
