

Soil and Water Science Invited Speaker Seminar

Speaker: Evelyn “Prissy” Fletcher
**Putnam County Horticulture
Extension Agent
UF/IFAS**

Title: Applications and Experiences of
**Soil and Water Sciences in
Extension**

Date: Monday, February 15th

Time: 3:00 pm

Location: McCarty Hall A, Room G186

The cooperative extension service is offered through land-grant universities such as the University of Florida. Our particular operation is offered through the Institute of Food and Agricultural Sciences. Within the IFAS Extension are many applications of soil and water sciences, especially for agricultural and horticultural agents. County extension agents are responsible for taking research-based information and using it to educate the public in ways that the everyday individual can understand and apply. Through my experiences, there are endless methods offered through the Soil and Water Science Department that are applicable to extension clientele and programs. The department's research projects, laboratory training, workshops, field excursions and lectures have been valuable tools for this alumna to show Florida residents how to be sustainable in the landscape, gardens and commercial operations.

For our off-campus students, off-campus faculty, and on-campus students who cannot attend, all seminars can be viewed at: <http://mbreeze.ifas.ufl.edu/seminars>. In addition, all seminars are archived for viewing at <http://soils.ifas.ufl.edu/academics/seminars.shtml>
