SWS 4245/5246 WATER RESOURCE SUSTAINABILITY

3 credits/Spring Semester

COURSE MOTIVATION AND DESCRIPTION

This course is about the global water crisis: the challenge of providing sufficient and equitable water supply for all people while also supporting ecosystem functions. Four key themes are maintained: hydrology, ecological protection, social justice, and economic opportunity.

Global demand for freshwater resources grows continuously, while at the same time there is increasing emphasis on preventing pollution and leaving enough water for natural ecosystem functions. These combined pressures define the need for sustainable water resource management. This course describes the effects of human impacts on hydrologic ecosystems (aquifers, watersheds, coastal zones, lakes, and wetlands) with quantitative measures of impacts and mitigation/attenuation efforts. Case studies from around the world are used to illustrate both the detrimental effects of unsustainable resource utilization and the benefits of implementing sustainable resource management strategies.

This course is intended for graduate and advanced undergraduate students interested in the interactions between human civilization and hydrologic systems and should be of interest to environmental and agricultural scientists and engineers, and natural resource managers.

Instructor
James W. Jawitz, Professor
2191 McCarty Hall

INDIVIDUAL/GROUP ASSIGNMENTS

Your success as a professional will be based, in large part, on your ability to effectively communicate your ideas in both written and verbal forms. We all need practice to develop and improve these technical communication skills.

1. All students: Weekly reading assignments will require are available on the course Canvas site at https://lss.at.ufl.edu/. Readings are scholarly research articles, news analyses, and commentaries.
Each Friday, a written response of at least 500 words is due. These writings should be a critical evaluation and brief synthesis of the week’s readings, not just a summary. Required components include:

- Description of the main points and fundamental concepts of the article,
- How does this information relate to previous information?
- Answer/discussion of assigned weekly questions related to the readings.

You are likely to be called upon in class to share your comments. Typed assignments are due following the discussion period (Fridays).

2. All students: Group synthesis project about water resource sustainability. Deliverables: 1) 500-word initial vision statement, 2) Final report, plan, or creation oriented to an identified client, stakeholder, or audience, including a 15-minute pre-recorded presentation posted online.

3. Graduate students: An additional assignment will be described during the first week of class. Examples in the past have included independently research and report on the answer to a topical question about global water resources and/or independently report on a site visit to at least one hydrologic/hydraulic feature related to concepts and topics discussed in class. Important: Credit can only be received through coordination with the instructor. Due by the end of Week 13.

**GRADING SYSTEM**

To reflect the different skills required for professional success, the final grade in this course is based on analytical reading/writing assignments, thoughtful and consistent participation, formal essay exams, and interesting individual and group projects.

Exams are primarily essay questions linking concepts with specific information from case studies. Exam grades are historically highly correlated to class attendance. The exam dates and times are fixed FIRMLY, and no other accommodations can be made. Late assignments will be penalized in proportion to the time since the due date, with zero credit after two weeks. Class participation entails regular, on-time attendance and engagement. Class participation points will be assigned separately for each half of the semester.

Grade Scale
A ≥ 92 > A- ≥ 89 > B+ ≥ 86 > B ≥ 83 > B- ≥ 80 > C+ ≥ 77 > C ≥ 74 > C- ≥ 71 > D+ ≥ 68 > D ≥ 65 > D- ≥ 62 > E

“The mind does not require filling like a bottle, but rather, like wood, it only requires kindling to create in it an impulse to think independently.”
- Plutarch, c. 100 AD *Moralia, On Listening to Lectures* 48C (Loeb Classic Library 1.259)
COURSE SCHEDULE  (Writing assignments are due on the last date listed for each module)

**Week 1. Getting serious about sustainability**  
7,9,10,14 January

Why is water important?  
What is it we wish to sustain?  
What are the typical patterns of resource exploitation?  
How long will resources last?

2. The Economist, 2019. The UN revises down its population forecasts, 22 June,  

**2-3. Water history: Timescales of variability**  
16,17,21,23,24 January

On what time scales do Earth systems change?  
How are water resources connected to societal development and decay?  
How have human interventions in the hydrologic cycle evolved with time?

**4. Water availability: Uneven distribution in space and time**  
28,30,31 January

Where is the world’s fresh water?  
When is the water there?  
How are humans using freshwater?

**5. Water for people**  
[4],6,7 February

Does everyone have access to clean water and toilets?  
What are the drivers of water scarcity?  
What progress is being made?

9. The Economist, 2018. How Bangladesh vanquished diarrhea, 22 March,  
10. The Economist, 2018. Why India is one of the most polluted countries on Earth, 6 December,  
6. Groundwater: The shouting present vs the whispering future  11,13,14 February
Who uses groundwater?
Where is groundwater?
What happens when groundwater is pumped?
How can groundwater be used sustainably?

7. Water quality: Societal response to resource degradation  18,20,21 February
How does water get contaminated?
What are the effects of contamination?
What are likely trajectories of societal response?

   https://thememorypalace.us/2016/07/oil-water/
18. Natural Resources Defense Council, 2019. Flint Water Crisis: What’s at Stake, 4 December,
   https://www.nrdc.org/flint
   https://nyti.ms/2LFKcPB

8. Water transfer: Local consumption, distant impacts  [25],27,28 February
Who uses surface water?
Where are the important watersheds?
How is water redistributed, both physically and virtually?
Where are water transfers important?

MIDTERM EXAM 28 February

9. SPRING BREAK  2-6 March

10. Water transfer: Restoration and rigidity traps  10,12,13 March
What are the impacts of water transfer?
Can detrimental impacts be reversed?
What is the future of water transfer?

20. China Daily, 2017. South-to-north water diversion benefits 50 million Chinese, 14 September,
   http://www.chinadaily.com.cn/china/2017-09/14/content_32000250.htm
21. The Economist, 2018. China has built the world’s largest water-diversion project, April 18, [https://www.economist.com/china/2018/04/05/china-has-built-the-worlds-largest-water-diversion-project](https://www.economist.com/china/2018/04/05/china-has-built-the-worlds-largest-water-diversion-project)

**GROUP PROJECT VISION STATEMENT DUE 14 MARCH**

<table>

<td></td>
</tr>
</tbody>
</table>
GRADUATE STUDENT INDIVIDUAL PROJECT DEADLINE

14. Water Institutions: Humans vs Humans, Cooperation vs Conflict  9, 10, 14 April
   Will future wars be fought over war?
   How do asymmetries in political/economic/military power affect water allocation?

34. Gleick PH, 2016. Water strategies for the next administration: Water policy offers opportunity for

GROUP PRESENTATION RECORDINGS DUE 12 APRIL (SUNDAY!!)

   What strategies should water managers pursue to support water resource sustainability?
   What about political leaders at local, state, and federal levels?

GROUP PROJECT ROUNDTABLE 17 APRIL

EXAM 2: 1 May 10:00-12:00 (sorry, it is not possible to take this earlier)

**Students Requiring Accommodations**

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center by visiting [https://disability.ufl.edu/students/get-started/](https://disability.ufl.edu/students/get-started/). It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

**Course Evaluation**

Students are expected to provide feedback on the quality of instruction in this course by completing online evaluations at [https://gatorevals.aa.ufl.edu/](https://gatorevals.aa.ufl.edu/). Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at [https://gatorevals.aa.ufl.edu/](https://gatorevals.aa.ufl.edu/).

**University Honesty Policy**

UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code ([https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/](https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/)) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.

**Software Use**

All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

**Student Privacy**

There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information: [http://registrar.ufl.edu/catalog0910/policies/regulationferpa.html](http://registrar.ufl.edu/catalog0910/policies/regulationferpa.html)

**Campus Resources:**

*Health and Wellness*

**U Matter, We Care:**
If you or a friend is in distress, please contact umatter@ufl.edu or 352 392-1575 so that a team member can reach out to the student.

**Counseling and Wellness Center:** [http://www.counseling.ufl.edu/cwc](http://www.counseling.ufl.edu/cwc), and 392-1575; and the University Police Department: 392-1111 or 9-1-1 for emergencies.

**Sexual Assault Recovery Services (SARS)**
Student Health Care Center, 392-1161.
University Police Department at 392-1111 (or 9-1-1 for emergencies), or http://www.police.ufl.edu/.

**Academic Resources**

**E-learning technical support**, 352-392-4357 (select option 2) or e-mail to Learning-support@ufl.edu. https://lss.at.ufl.edu/help.shtml.

**Library Support**, http://cms.uflib.ufl.edu/ask. Various ways to receive assistance with respect to using the libraries or finding resources.

**Teaching Center**, Broward Hall, 392-2010 or 392-6420. General study skills and tutoring. https://teachingcenter.ufl.edu/.
